EXPERIENCE

Software Engineer | EMIS Health, Chennai | May 2023 – Present

- Develop and manage **scalable, reusable React components** for a healthcare SaaS platform.
- Implement **secure API integrations** for CRUD operations and real-time data updates.
- Optimize performance through **unit testing and code reviews**.
- Collaborate with backend teams, QA, and DevOps for smooth CI/CD pipeline management.
- Mentor junior developers on **best practices and maintainability**.
- Contribute to **technical documentation** for internal knowledge sharing.

Software Engineer | Chateaux, Bangalore | Dec 2021 – May 2023

- Developed **VCheck24**, a real-time tracking application using **React.js and Node.js**.
- Built **responsive UI components** with optimized state management using **Redux**.
- Integrated **video check-in monitoring and geo-location tracking** for security features.
- Ensured high code maintainability through **Agile methodologies**.
- Worked with backend teams to design **scalable API structures**.

UI Developer | CloudNow Tech LLC, Chennai | Sep 2021 – Dec 2021

- Designed and developed **dynamic UIs** using **React.js, HTML, CSS, and MUI**.
- Optimized **component reusability** and ensured **accessibility compliance**.
- Created **technical documentation** for UI components.

Junior Software Engineer | iBridge LLC, Bangalore | Jul 2020 – Sep 2021

- Developed and maintained **web applications** using **React.js, Next.js, and JavaScript**.
- Implemented **REST API integrations** and managed state with **React Context API**.
- Handled **Git version control** and participated in **code reviews**.
